Attorneys at Law

At Mitts Milavec, we have extensive expertise in the following areas:

Appellate Advocacy

In appellate court, the rules of the game are different than those in a trial setting. Our experienced attorneys know this better than anyone, and have successfully argued cases before the United States Supreme Court, the Courts of Appeals for a number of Circuits, and the highest state courts, including Alabama, California, District of Columbia, New Jersey, Pennsylvania and Texas.

Bankruptcy & Creditor Rights

In today's increasingly complex business environment, effective bankruptcy planning and strategy are more important than ever. We assist clients with all aspects of insolvency or credit situations, including developing effective strategies for dealing with troubled businesses, competing creditors' claims and imperiled lending relationships.

Complex Commercial Litigation

At Mitts Milavec, litigation is at the core of our practice. Our attorneys excel in complex, high stakes litigation with experience that spans the continental U.S. in state and federal courts and arbitration forums.

Corporate & Business Law

Agreements, plans and forms are a part of every phase of a corporation from inception to final exit. We offer a wide range of business and commercial law services to supplement and support our clients' existing in-house counsel in a wide range of industries. We also work as a team with management and entrepreneurs to help them plan for the future and successfully deal with day-to-day legal issues and challenges facing their businesses.

E-Commerce

The rules regarding the Internet are challenging and rapidly changing. We help clients of all sizes navigate these changes with services ranging from vendor agreements to ownership rights, software licensing, website development, domain name disputes, online advertising and the protection of trademarks, trade secrets, copyrights and technology rights.

General Civil Litigation

Litigation has a significant impact on a company's ability to achieve its business objectives or an individual's finances, time and peace of mind. Our attorneys work closely with large and small clients to manage litigation efficiently in state and federal courts, arbitrations, mediations, administrative proceedings and private or internal investigations and review proceedings.

Healthcare & Biotechnology Law

Healthcare, medical device, health insurance and biotechnology organizations operate in one of the most challenging legal environments today. We assist healthcare clients with mergers, acquisitions, affiliations, joint ventures, licensing, sales and other transactional projects, employment issues, reimbursement disputes, compliance matters, crisis-management strategies, and all stages of growth and development.

Labor & Employment Law

We have significant experience defending and counseling employers in litigation, mediation and arbitration matters in federal and state courts and before administrative agencies involving statutes such as Title VII, FLSA, FMLA, ADEA, ADA, OSHA and the WARN Act, as well as the issues surrounding recruitment and retention of employees and reductions in force.

M&A and Strategic Alliances

With a specialization in healthcare and technology clients, we advise buyers, sellers, lenders, investors, management groups, financial advisors and intermediaries ranging from early-stage to mature companies and privately held companies to public companies, including businesses that operate in highly regulated industries.
